EDUCATION

Electrical Engineering and Automation

Chongqing University

Expected Graduation: 2027.06

Core Courses: Semiconductor Device Physics, SECS Programming, Digital Design, Electric Circuit Theory, Engineering Fundamentals, Engineering Modeling, Electronic Technology, Signals and Systems, Fundamentals of Solar Photovoltaic Systems, Engineering Electromagnetics, Electrical Machinery, etc..

GPA: 3.73/4.0

Class Rank: 3/30

Major Rank: 10/61

EXPERIENCE

RESEARCH

2022/10-2023/07

Chongqing University 15th SRTP Project

Member

Researched the design of a C-type underwater intelligent pipeline inspection robot. Utilized NX software to construct 3D models of the robot. Studied and implemented functional code for the robot through literature review.

2024/01-2024/04

Intelligent Obstacle Avoidance and Tracking Car Design

Member

Learned the fundamentals of 51 Microcontrollers and co-simulation using Proteus and Keil C51. Responsible for programming the driver modules to achieve movement (forward/backward), steering, and speed control.

2024/05-2024/08

2025/01-2025/04

NARI Industrial Control Technology (Nanjing) Co., Ltd.

Responsible for drawing Human-Machine Interface (HMI) graphics. Participated in the HMI development and line drawing for Beijing Subway Line 3 and Chongqing Subway Line 4.

2025/09-2025/12

Distance Protection of Grid-forming Power Station Outgoing Lines

Intern

Analyzed the amplitude and phase characteristics of fault voltage and current in grid-forming station outgoing lines. Evaluated the adaptability of traditional distance protection methods. Built simulation models of outgoing lines using the MATLAB/Simulink electromagnetic transient simulation platform. Verified protection effectiveness by observing and analyzing simulation waveforms.

ACTIVITIES

2022/10-Present

Chongqing University

Organizing Committee Member

Planned and organized Youth League Day activities and Party lectures. Liaised with the University Youth League Committee to convey work instructions.

2023/09 – 2024/09

Institute of Electrical Engineers

Vice President

Organized academic and social activities, including electrical/electronic lectures and PCB assembly workshops.

SKILLS

- Languages:** Passed CET-4 and CET-6.
- Professional Skills:** MATLAB, C++, NX, Proteus, Python, Keil C51, Multisim, AutoCAD, etc..

Personal Profile

- Easy-going and optimistic with strong communication skills. Highly responsible, a dedicated team player, and a fast learner capable of mastering new technologies quickly.

HONORS

- Comprehensive Scholarship (Second Class), First Semester of 2024-2025 Academic Year
- Outstanding Student, 2024-2025 Academic Year
- Honorable Mention (H Award), Mathematical Contest in Modeling (MCM/ICM)
- Outstanding Youth League Member, 2023-2024 Academic Year
- Advanced Individual in Labor Practice, 2022-2023 Academic Year
- Third Prize, 7th National College Student Micro-movie Display

教育

电气工程及其自动化

重庆大学（大四在读）

预计毕业时间：2027.06

已修基础课程：半导体器件物理，SECS 编程，数字化设计，电路原理，工程基础，工程建模，电子技术，信号与系统，太阳能光伏系统基础，工程电磁场，电机学等。

• GPA: 3.73/4.0

班级排名: 3/30

专业排名: 10/61

经历

• 科研实习经历

2022/10-2023/07

重庆大学第 15 届 SRTF 项目

队员

研究 C 型水下智能巡检管道机器人设想；使用 NX 构建机器人模型；通过文献学习机器人功能相关代码。

2024/01-2024/04

智能避障循迹小车设计

队员

学习 51 单片机基础及 Proteus 与 Keil C51 联合仿真；负责编写驱动模块，实现小车前进、后退、转向及调速。

2024/05-2024/08

2025/01-2025/04

南京南瑞工业控制技术有限公司

企业实习：负责 HMI 界面的绘制，参与了北京三号线、重庆四号线等路线绘制。

2025/09-2025/12

构网型场站送出线路距离保护

实习生

分析构网型场站送出线路故障电压、电流幅值与相位特征，分析传统距离保护适应性，基于 MATLAB/SIMULINK 电磁暂态仿真平台，搭建构网型场站送出线路模型，观察仿真波形，验证效果。

• 学生活动经历

2022/10-至今

重庆大学-辛辛那提大学联合学院

组织委员

参与团日活动策划及组织党课学习；对接院团委传达工作指示。

2023/09 - 2024/09

重庆大学-辛辛那提大学联合学院

副社长

组织社团学习活动，完成电气电子相关讲座及 PCB 板组装活动。

技能

- 通过大学英语四六级。
- 专业技能：MATLAB, C++, NX, Proteus, Python, Keil C51, Multisim, CAD 等

个人介绍

- 性格随和开朗，善于沟通，具备极强的责任感、团队精神和快速掌握新事物的学习能力。

荣誉

- 2024-2025 学年第一学期优秀学生综合奖学金 乙等
- 2024-2025 学年优秀学生
- 2024 年美国大学生数学建模竞赛 H 奖
- 2023-2024 学年优秀共青团员
- 2022-2023 年劳动实践先进个人
- 第七届全国高校大学生微电影展示活动长视频组三等奖
